The complete rehearsal loop.

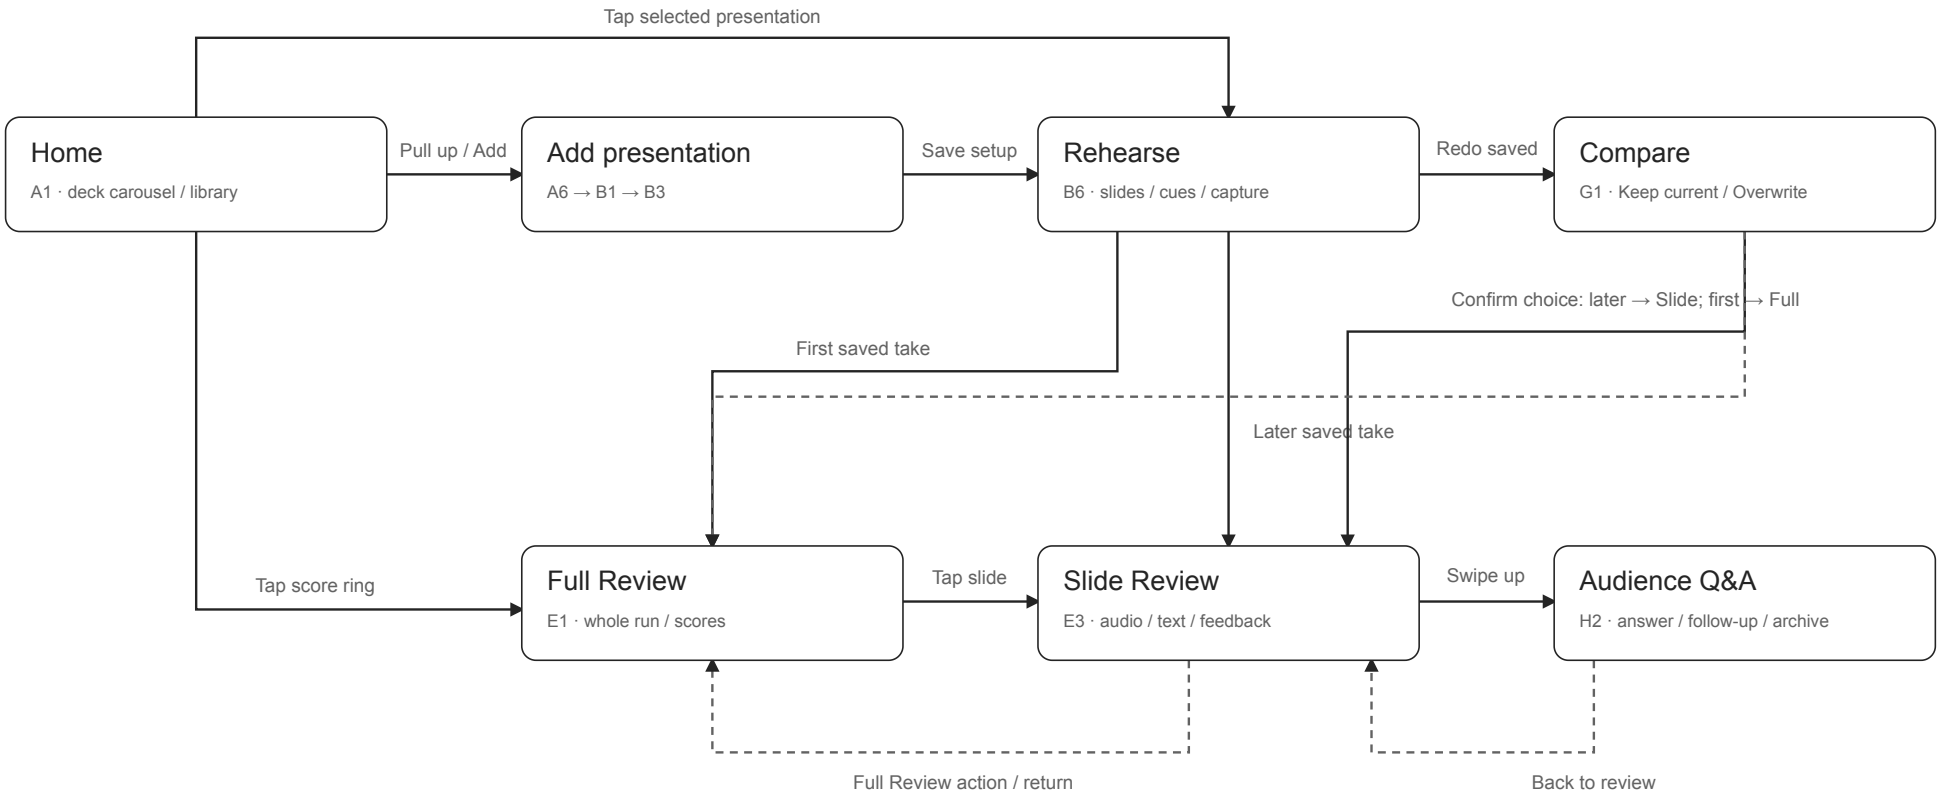

All seven implemented screens, with 54 wireframes for their main views, overlays, and major states. Follow the numbered links between frames; select any phone to inspect its behavior and exact source.

Source PR #31 / f1af9dd Snapshot 17 October 2026 · Asia/Seoul Coverage 7 screens / 54 wireframes / 9 groups

01 / NAVIGATION

One app. Seven screens.

Home is the presentation library. Setup, playback, corrections, assessments, and saved Q&A are nested views within this navigation. Text in brackets is a wireframe placeholder; charts and waveforms are schematic.

Solid: main transitions. Dashed: conditional choice or return. Android Back follows the active screen's return context.

Record → review → improve

The first saved take opens Full Review. Later saved takes open Slide Review. A redo can first open Compare; Keep current or Overwrite resolves the selected recording.

Return paths keep their context

Full Review returns to Home, slides, or Slide Review according to where it opened. Slide Review returns to Full Review when opened there. Q&A returns to Slide Review.

Read the board as a state diagram

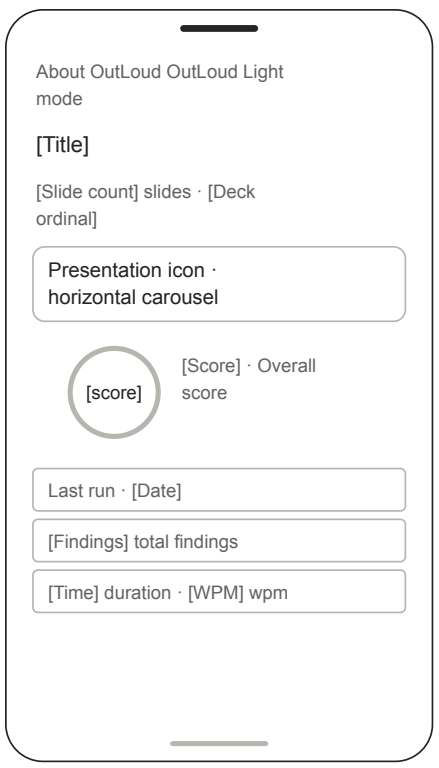

A–I groups contain all 54 numbered wireframes. Links beneath each frame identify real actions and their destinations. Different scroll positions and overlays are shown separately. VARIANTS means conditional messages or controls, displayed one at a time.

A / Home & presentation library

Presentation carousel, customization, deletion, and import entry.

A1 / SCREEN — HOME

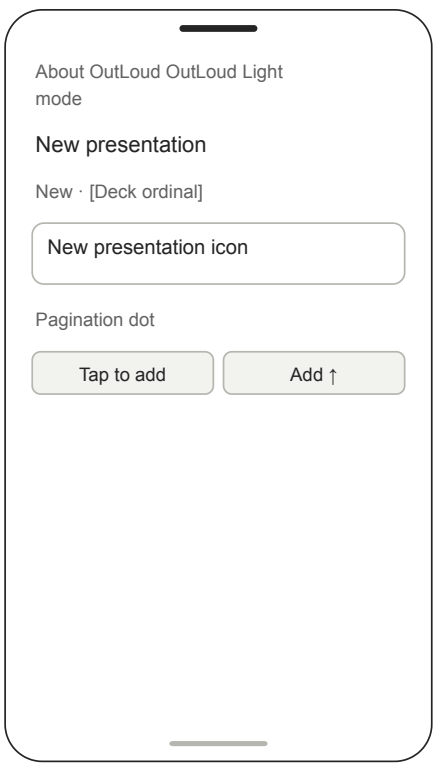

Home · saved presentations

Tap front deck → B6
Tap score ring → E1
Hold deck icon → A3
Tap About → A4
Pull down and hold → A5
Pull up → A6

A2 / STATE — HOME

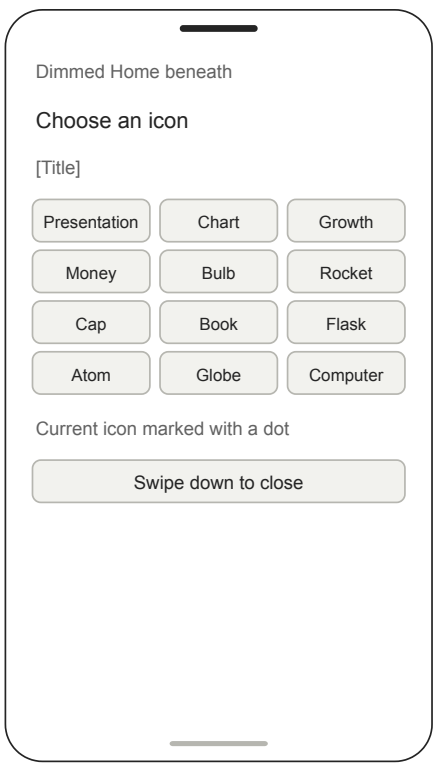

Home · no presentations

Tap icon / pull up → A6
Tap About → A4

A3 / OVERLAY — HOME

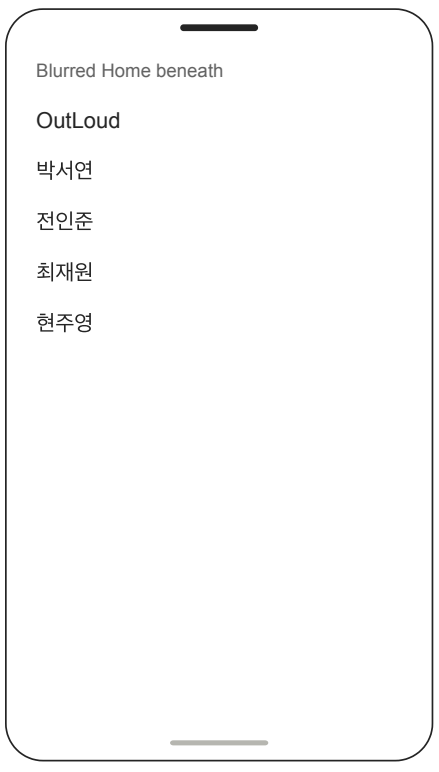

Choose an icon

Choose icon / close → A1

A4 / OVERLAY — HOME

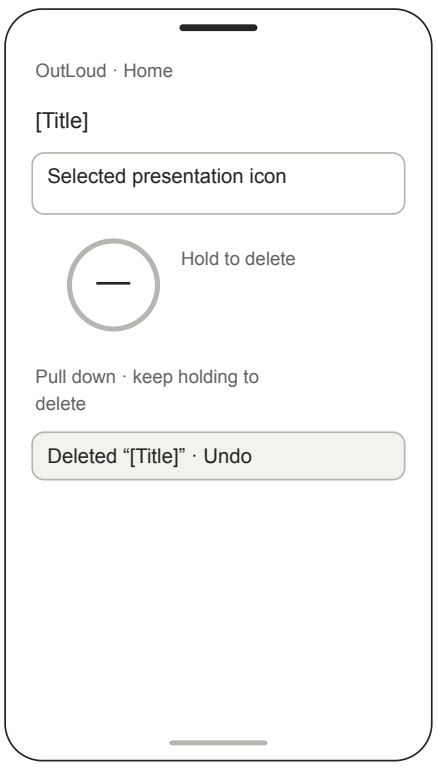

About OutLoud · credits

Tap backdrop / Back → A1

A5 / STATE — HOME

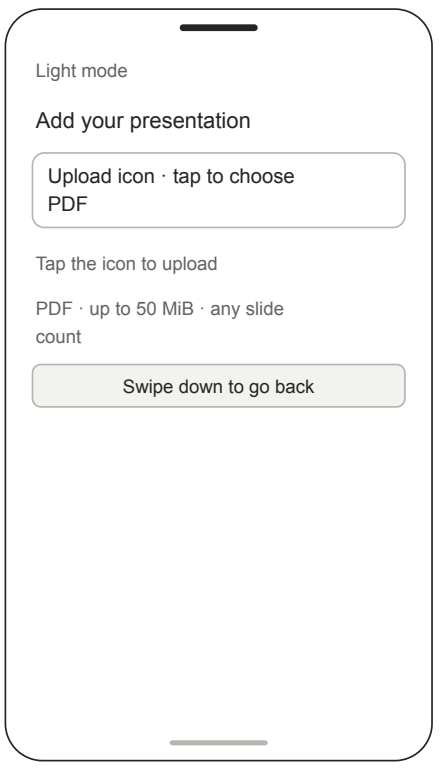

Delete presentation · Undo

Undo / toast expires → A1

A6 / SCREEN — UPLOAD

Add your presentation

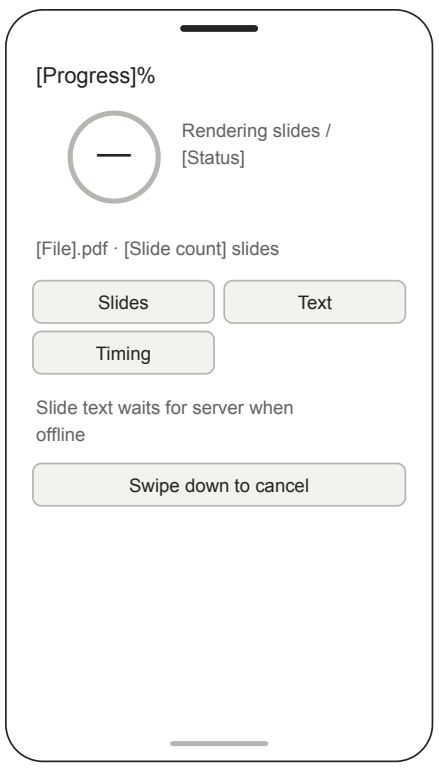

Select PDF in native picker → B1
Swipe down / Back → A1

B / Import, setup & rehearsal entry

PDF processing, presentation time and audience, sync states, and ready view.

B1 / STATE — UPLOAD

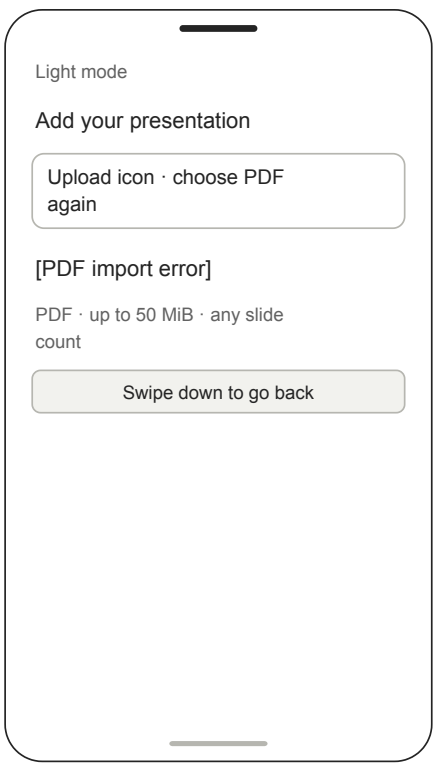

Import · slides, text, timing

Analysis completes → B3
Analysis fails → B2
Cancel import → A1

B2 / STATE — UPLOAD

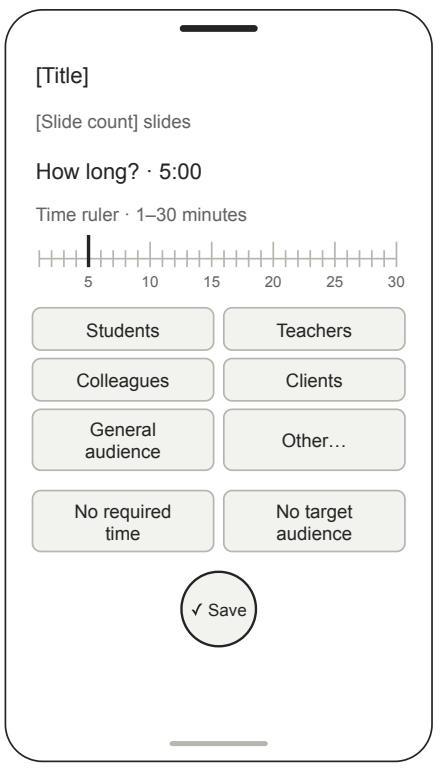

PDF import failed · choose again

Choose a PDF again → B1
Swipe down / Back → A1

B3 / OVERLAY — UPLOAD

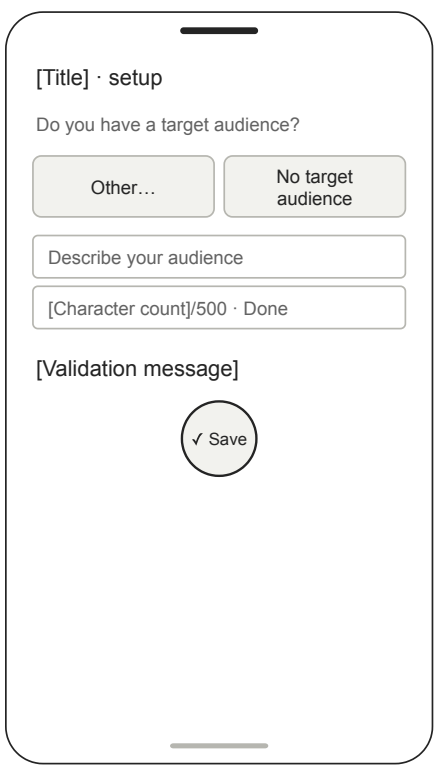

Presentation setup · defaults

Choose Other… → B4
Save choices → B6
Initial import: Back to Home → A1
Editing existing deck: Back → B6

B4 / STATE — UPLOAD

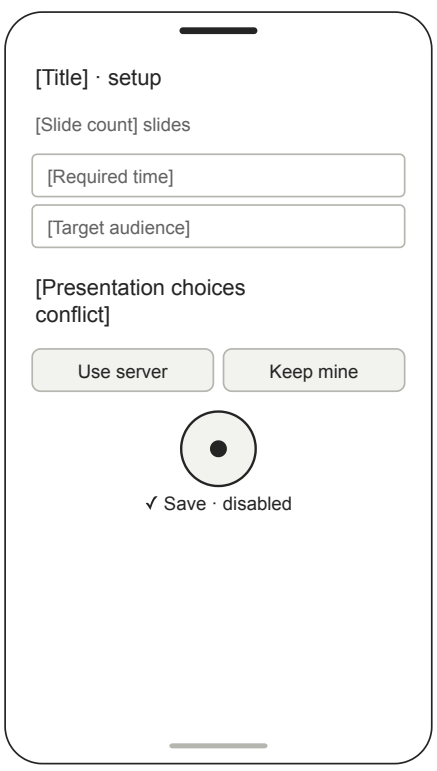

Custom audience · input & validation

Save valid choices → B6
Choose preset audience → B3

B5 / STATE — REHEARSE

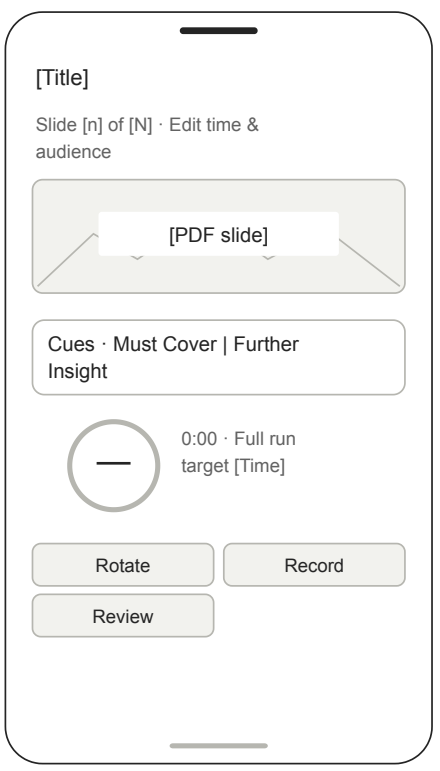

Presentation choices · sync conflict

Use server / Keep mine → B6

B6 / SCREEN — REHEARSE

Rehearse · ready

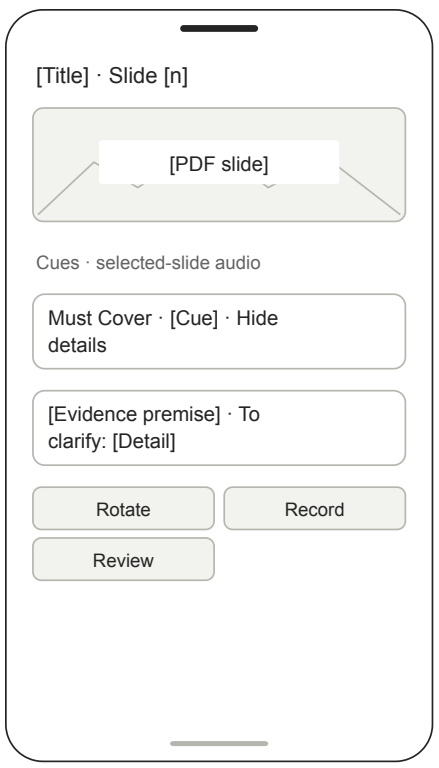

Edit time & audience → B3
Cue Details → C1
Rotate → C3
Tap Record → C4
Tap Redo on recorded slide → D1
Hold 3 seconds → D2
Review first saved take → E1
Review later take → E3
Swipe down → A1

C / Rehearsal & capture states

Cue evidence, rotated PDF, countdown, live audio, and completion routing.

C1 / STATE REHEARSE

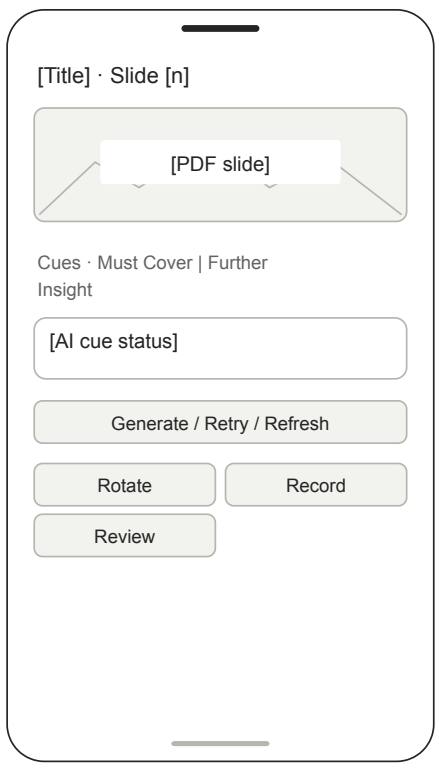

Cues · expanded details

Hide details → B6
Record → C4

C2 / VARIANTS REHEARSE

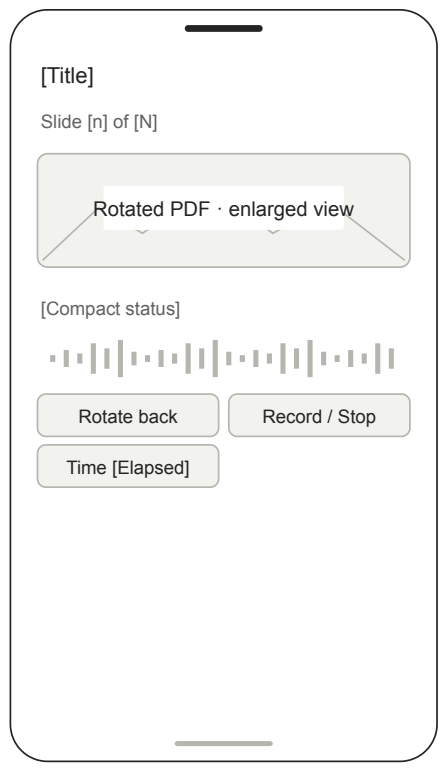

Cues · pending, offline, retry

Cues become ready → B6
Record with current cue state → C4

C3 / STATE REHEARSE

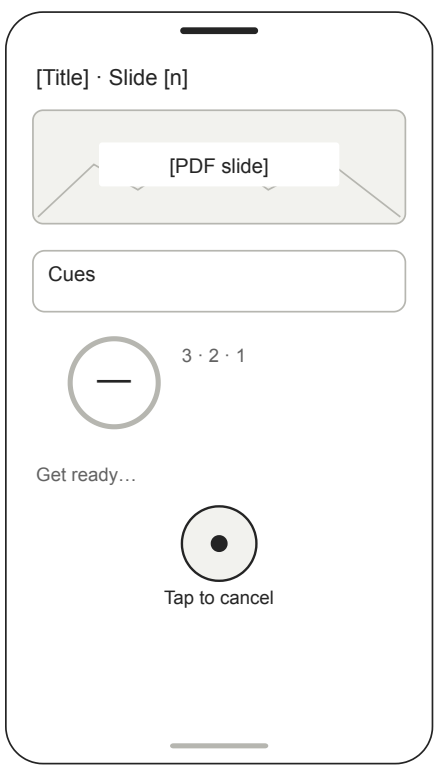

Rehearse · rotated PDF

Idle: Rotate back / Back → B6
Tap Record → C4
Live: rotate back; keep recording → C5
Live: Stop recording → C6

C4 / VARIANTS REHEARSE

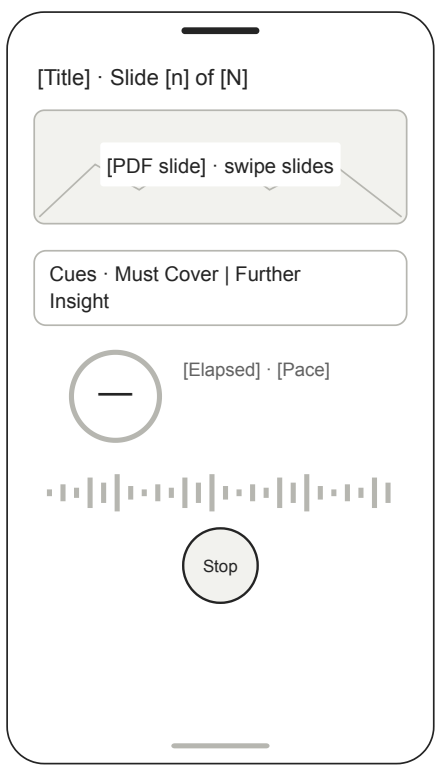

Record · countdown & starting

Microphone capture starts → C5
Cancel / start error → B6

C5 / STATE REHEARSE

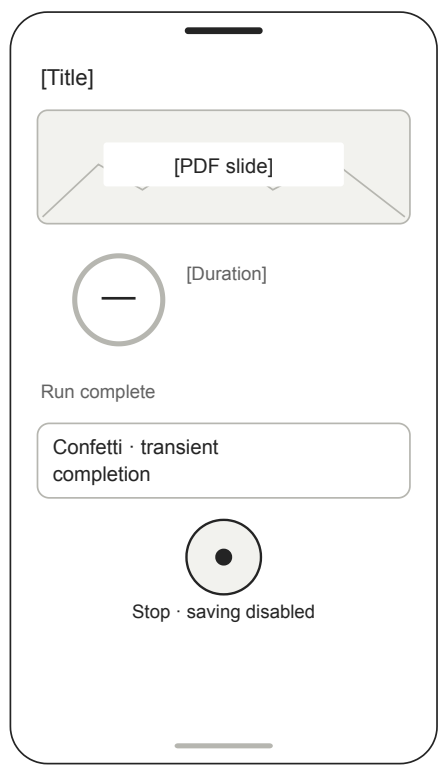

Recording · live rehearsal

Tap Stop → C6
Rotate PDF → C3

C6 / VARIANTS REHEARSE

Saving · completion & route

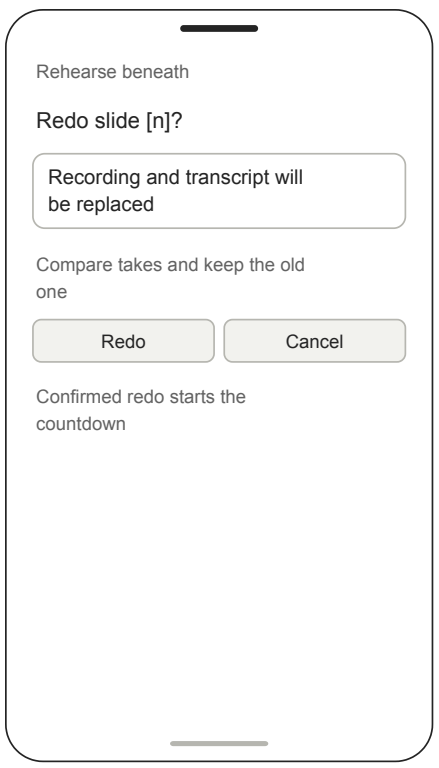

First saved take → E1
Later saved take → E3
Redo creates comparison → G1
Save fails → B6

D / Redo, recovery & transcription permission

Capture replacement choices, interrupted recordings, and global provider dialogs.

D1 / OVERLAY REHEARSE

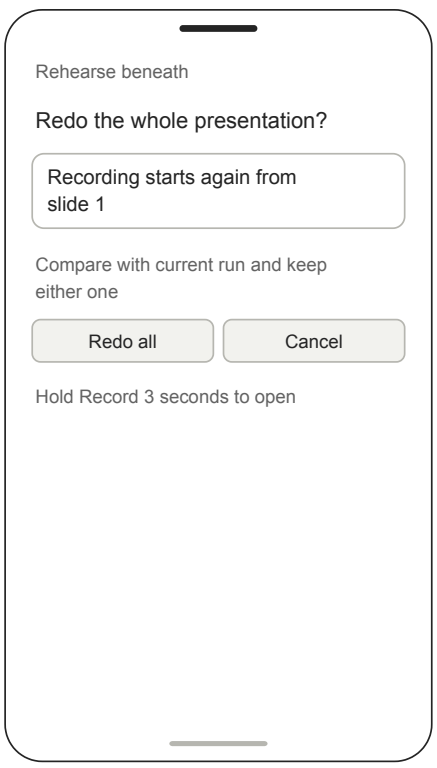

Redo slide · confirmation

Redo → C4
Cancel → B6

D2 / OVERLAY REHEARSE

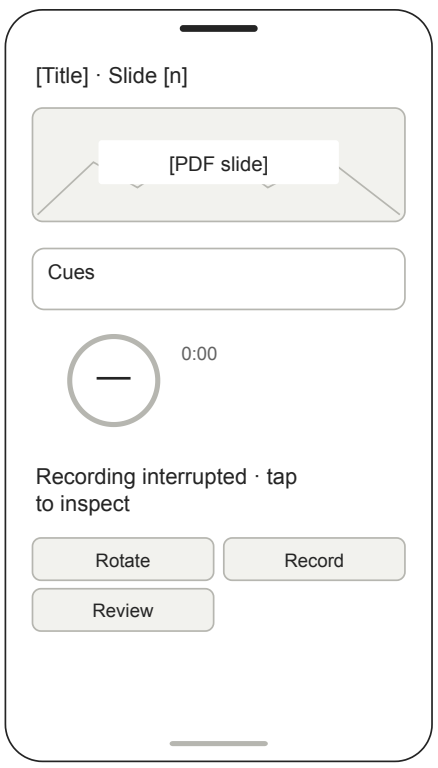

Redo whole presentation

Redo all → C4
Cancel → B6

D3 / STATE REHEARSE

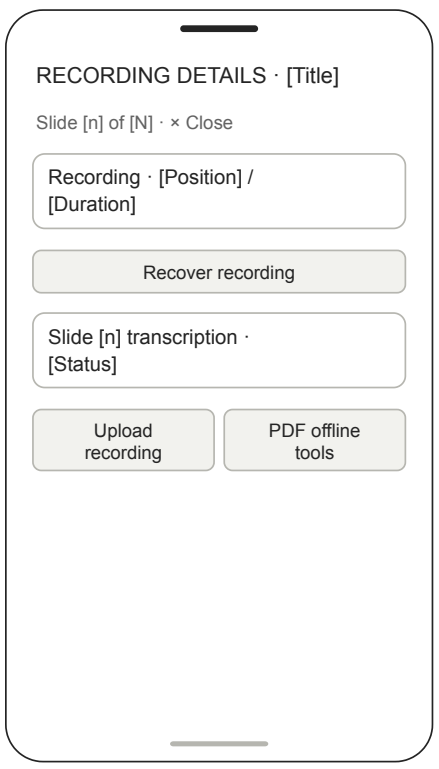

Interrupted recording · inspect entry

Tap interrupted notice → D4

D4 / OVERLAY REHEARSE

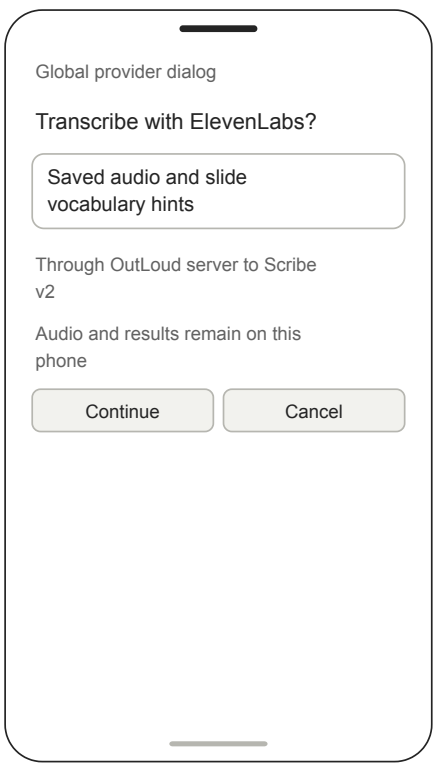

Recording details · recover capture

Recover first saved take → E1
Recover later saved take → E3
Recovery creates comparison → G1
Close → D3

D5 / OVERLAY REHEARSE

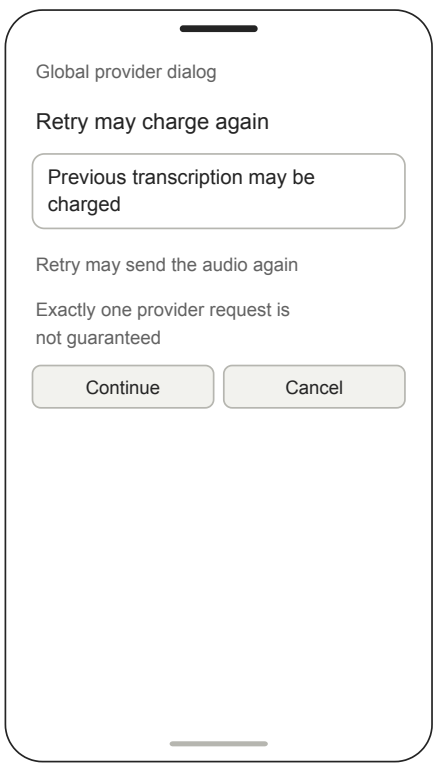

ElevenLabs · first-use permission

Dismiss to origin (D4 example) → D4

D6 / OVERLAY REHEARSE

Transcription · uncertain retry

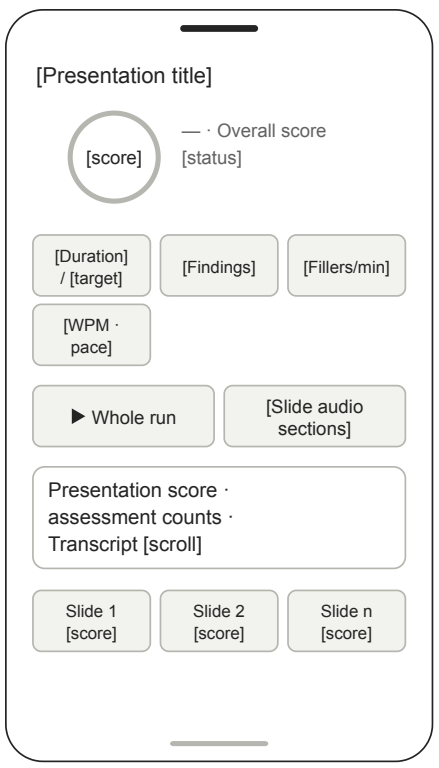

Dismiss to origin (D4 example) → D4

E / Review & playback

Whole-run review, slide playback and confirmed transcript corrections.

E1 / SCREEN FULL

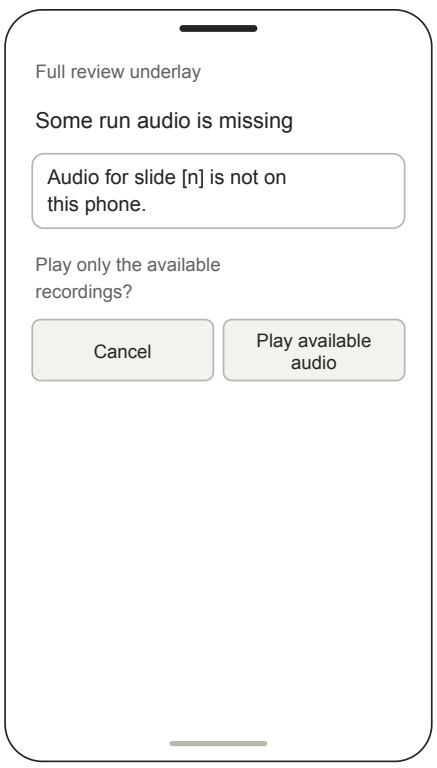

Full review

Tap a slide → E3
Play with partial missing audio → E2
Back when opened from Home → A1
Back when opened from Rehearse → B6
Back when opened from Slide review → E3

E2 / OVERLAY FULL

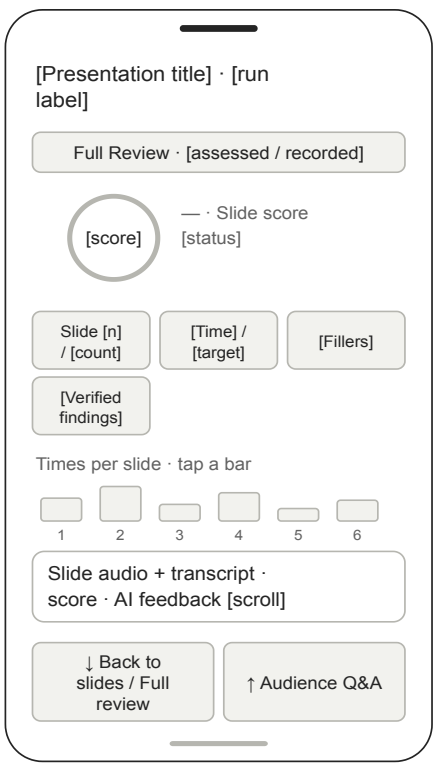

Some run audio is missing

Cancel → E1
Play available audio → E1

E3 / SCREEN REVIEW

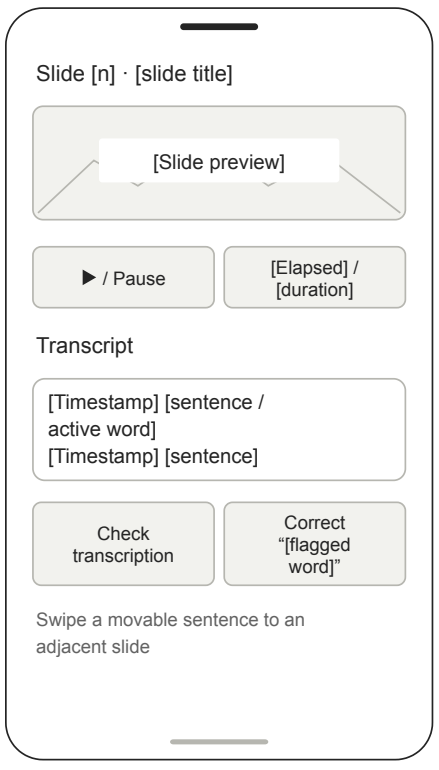

Slide review

Full Review → E1
Scroll to slide playback → E4
Audience Q&A when ready → H2
Back to slides → B6
Audience Q&A while preparing → H1
Back when opened from Full review → E1

E4 / STATE REVIEW

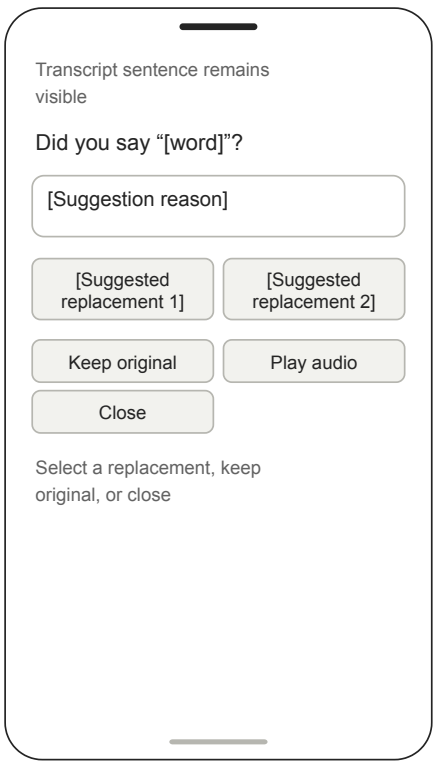

Slide audio & inline transcript

Tap flagged word → E5
Corrections conflict → E6
Recording tools → F4

E5 / STATE REVIEW

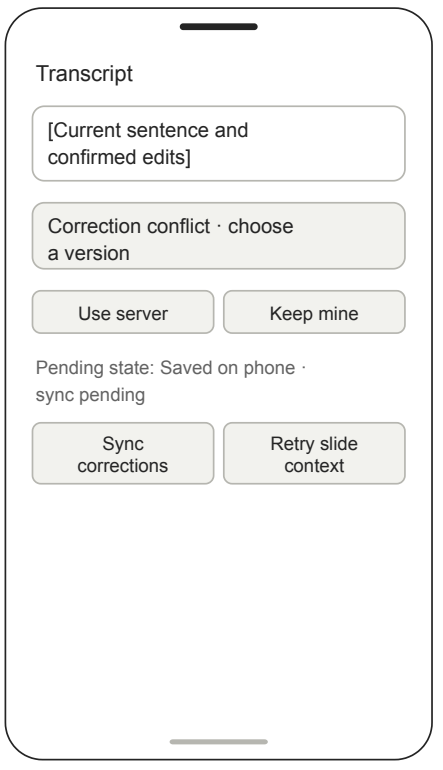

Transcription correction choices

Apply replacement / Keep original / Close → E4
Feedback becomes outdated → F5

E6 / VARIANTS REVIEW

Correction synchronization conflict

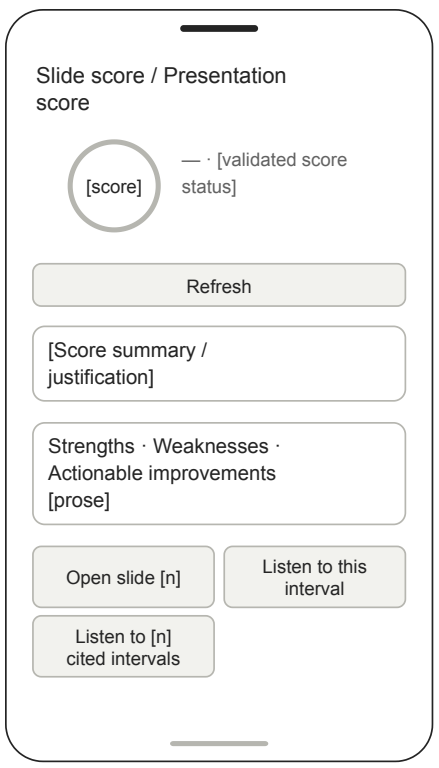

Resolve and synchronize → E4
Retry requires confirmation → F5

F / Assessment & recording tools

Numeric score, verified findings, evidence, offline tools and recovery states.

F1 / STATE REVIEW

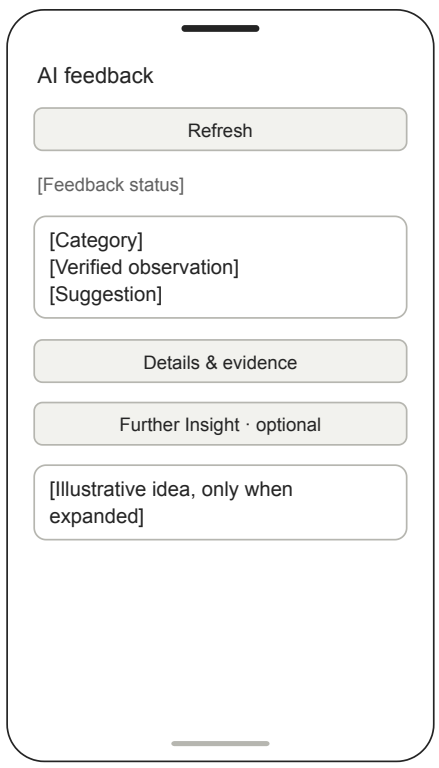

Score prose & cited evidence

Open slide evidence → E3
Slide review: listen to interval → F3
Score recovery state → F5

F2 / STATE REVIEW

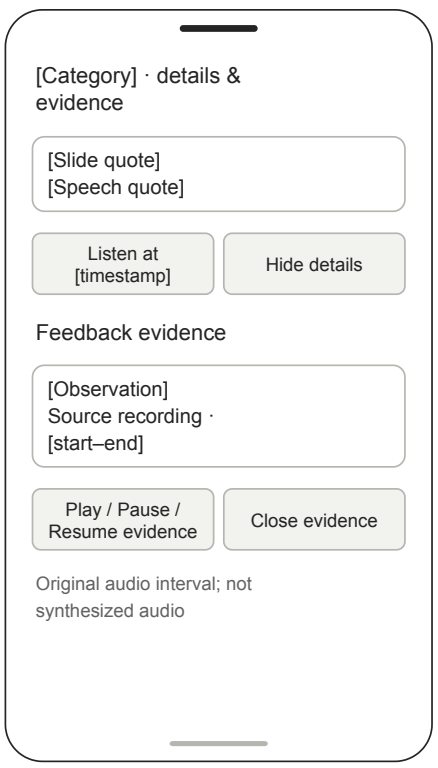

Selected-slide AI feedback

Details & evidence → F3
Update / retry feedback → F5

F3 / STATE REVIEW

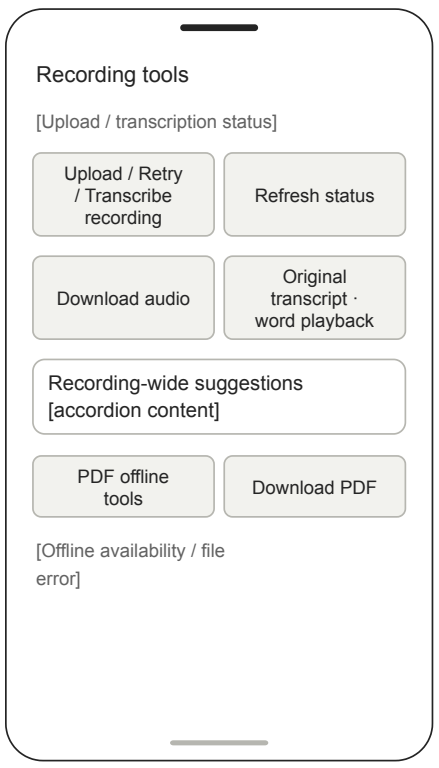

Finding details & source audio

Hide details → F2
Close evidence → E4
Download unavailable local audio → F4

F4 / STATE REVIEW

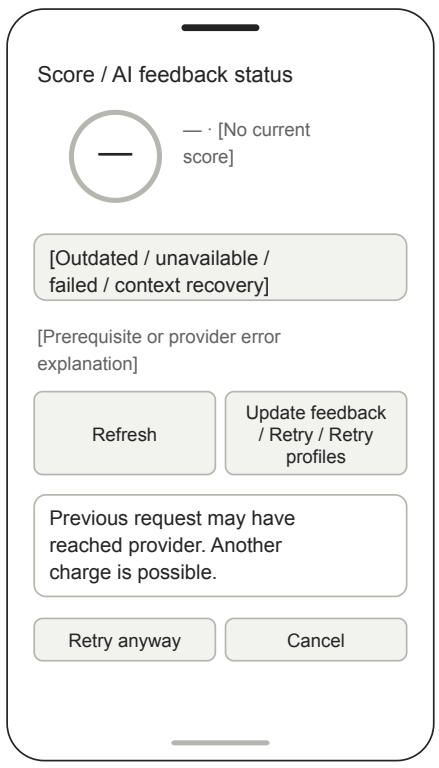

Recording tools & offline files

Recording-wide suggestions → G2
Transcription consent when needed → D5
